

WOL3D
INDIA
PVT LTD

"I am a big believer that technology shapes mankind."

ABOUT US

WOL3D is one of the renowned 3D Filament and 3d Printer manufacturing company in India. We at WOL3D, aimed at bridging the gap between ideation and manufacturing by providing premium quality and cost-effective 3D Printers. Our cutting-edge technology and innovation have helped us served our clients more delightfully.

We strive hard to make our printers user friendly so that our customers can have a hassle- free prototyping and manufacturing experience.

We are a renowned ISO, CE, ROHS certified company. We are the leaders in 3D printing technology with several offices in India, producing a range of products including 3D Printers, 3D Filaments, 3D pens, and much more. All the products designed by us pass the RoHS (Restriction of Hazardous Substances) compliance and meet all the international standards as well.

WHAT IS 3D PRINTING?

3D printing means a technique useful in making 3D solid models from a digital file. The 3D technique is carried out by the additive process and the layers are added carefully one at a time on the earlier layers till the final item is created. Using 3D printing technology, people can design complex shapes, objects, or designs at the most affordable rates as compared to the technology used in the past.

WHAT IS 3D PRINTING USED FOR?

With innovation in science and technology, the possibilities of creating 3D designs are endless. 3D printing technology is used in different sectors like architecture, product designing, fashion, and much more. We at WOL3D help make 3D printing technology more accessible. Some of the uses of 3D printing are presented below.

- Quick Prototyping
- Aerospace Industry
- Educational Institutes
- Manufacturing Sector
- Engineering Industry
- Architectural Industry
- Customized objects or models

From rapid prototyping to medical modeling and manufacturing, 3D printers designed at WOL3D use revolutionary FDM and PolyJet technology that makes 3d printing more quick and effective.

Our Core Values

Innovation: Innovation is an integral part of everything we do at WOL3D. From creating amazing 3d design printers to advanced processes for manufacturing, we always focus on adding uniqueness to every product manufactured by us.

“A brand is a voice and a product is a souvenir.”

Precision:

We are experts in creating flawless designs with precision like never before.

Exceptional Quality:

The entire team at WOL3D works harder to deliver excellent quality that meets industry standards. We explore different ways of quality assurance so that we can meet the expectations of our clients.

Materials used for creating 3D Printers

Our extensive and versatile portfolio of 3D printers caters to diversified clients. We use different materials like plastic, elastomer, composite, wax, metal, bio-compatible, and more material types while creating unique and admirable 3D Printer designs.

Our products

- **3D Printers:** WOL3D is the only Indian company selling more than 50+ models of 3D Printers in India. We are exclusive master distributors of International Brands like Flashforge, Creality3D, Qidi to name a few. We manufacturing our own printer under our brand name Hi smart series raising till 1meter build volume.
- **Raw materials:** WOL3D lays its foundation on solid principles. Delivering premium quality Resins & Filaments to meet our customers' demand is our topmost priority. Whether it's Multi Variety 3D Filaments or creating new raw-materials. We are the best partners in your growth. Having more than 25+ types of raw materials which can be used in any 3D printer.
- **Pen & Scanners:** You can get different kinds of 3d pens and scanners at the most economical rates. We have our own brands and very popular in Indian market like Ganesha 3D Pen, Itouch and ItouchPlus.
- **Consumable and spare parts:** WOL3D offers 100% Genuine and original 3d printer spares across the country. You can enjoy online shopping for 3D Printer Parts & Accessories from a wider range of products at WOL3D Store. Faster sales support as spares are readily available.
- **Other products:** Prototyping Services, designing, educational workshops, School classes and many such activities of spreading 3D Printers in India.

MISSION AND VISION

We aimed at developing and delivering high quality, reliable, and cost-effective 3D printing machines and filaments. Our team of experts is ready to dynamic after-sales support to all the customers who have trusted us. We constantly innovate and improvise our services to assist the Indian market by making 3D printing more accessible and affordable.

“Any Sufficiently advanced technology is equivalent to magic.”

THE JOURNEY OF EXCELLENCE

With an aim to be a part of this booming industry, we started looking forward in this sector. We visited an exhibition in the beginning of 2016 to get real insight of the flourishing 3D Printing sector. TO give vision to our dreams, we visited several countries like China, Taiwan, UK, so that we can have in-depth knowledge of the 3D printer manufacturing industry and how it we can be a part of this booming industry.

In April 2016 we gave vision to our dreams by launching our brand - "WORLD OF LILLIPUTS". We started our business in a 350 sqft space by making a miniature of a human, a replica of anyone and for the same, we purchased 3D Printers, scanners and raw material. We took part in several events, exhibitions to make our brand more accessible. After a few months we realized, this is just a drop in the ocean and a very small part of the 3D Printing Industry and that's when we decided, to be the ocean. We looked for companies to sign a partnership deal and then we signed our first contract with Flashforge, which is one of our exclusive partners in India.

We grew as a team and we laid emphasis on more "Collaborations". After years of hard work, we became a renowned manufacture of 3D printers and 3D Filaments, satisfying the growing needs of our diversified clients. Since inception in 2016, we have found no bounds and expanded our lineup to meet the growing needs of our diversified clientele.

"It's not that we use technology,
we live technology."

GROWTH TRENDS

Growth is never a mere chance, it is the result of forces working together. Below is our growth story due to our consistency and huge team efforts. Starting 25th September 2016.

YEAR 2021

We aimed to become Cream of 3D printers and 3D filaments manufacturing company in India.

YEAR 2020

- Manufacturing India's largest 3D filament manufacturing Plant
- Became Top 10 distributor for Creality in the world and Number 1 in India
- 50+ team strength across India
- 35+ Printer range and 100+ filament varieties.
- Launch 1 meter 3D Printer
- Crossed milestone of 10000+ 3D Printers, 100000+ 3D Filament, 20000+ 3D pens

YEAR 2019

- Launch Hismart Brand – 3D Printer manufacturing setup.
- Launch Itouch Branded Pen.
- In this year, we entered into agreement with India Distributor for Creality brand.
- 10th Franchisee
- Crossed 50000+ 3D Filaments and 5000+ printer

YEAR 2018

- Launch of Ganesha 3D pen
- Started our own Ecommerce website.
- Started 3D Printing Workshops.
- Made presence across 5+ offices in India

YEAR 2017

- We setup our 1st Franchisee in 2017
- Crossed 100+ Resellers.
- Launched our products on Amazon Store.
- WOL3D Branded 25 types of 3D Filaments Launched

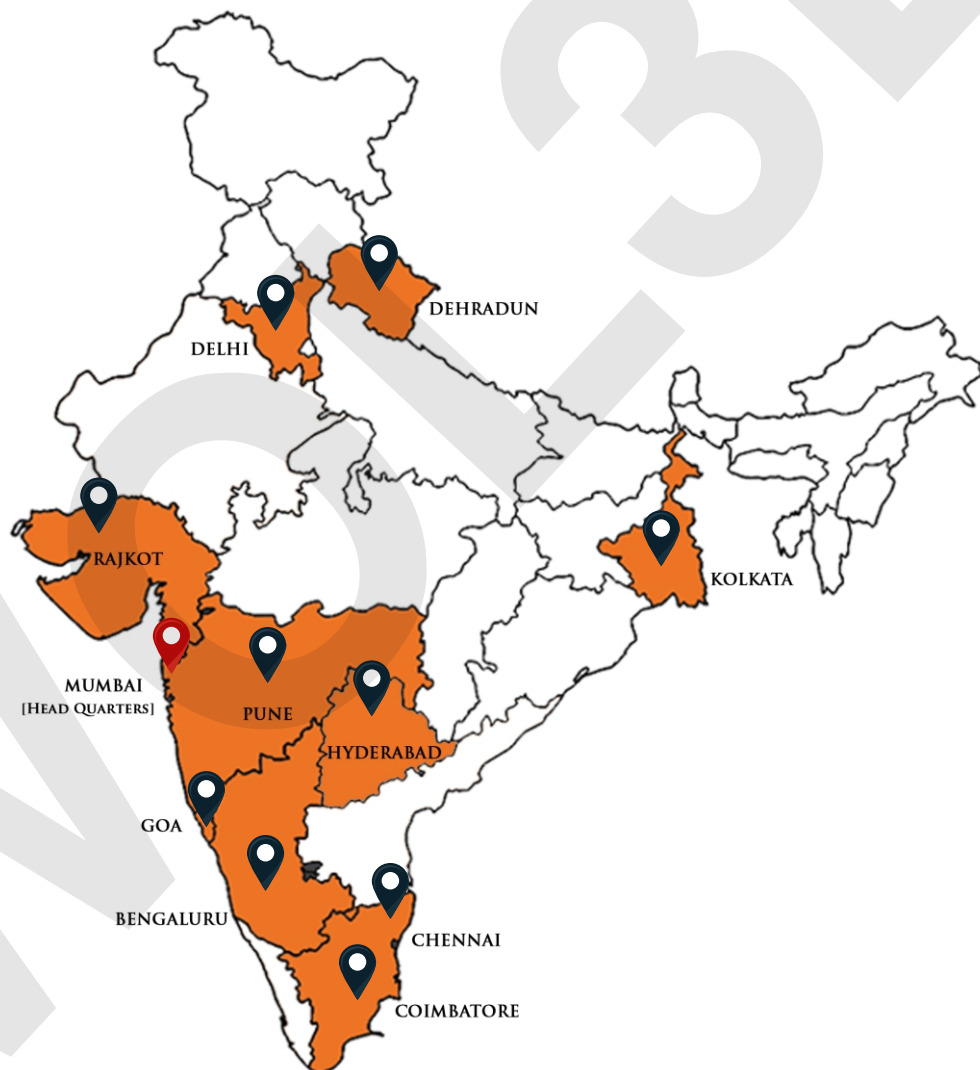

YEAR 2016

- Start 25th September
- We launched an exclusive distributorship of Flashforge 3D printer
- Launched with a 5 member team

“It's not a faith in technology, It's faith in people who believe technology.”

OUR REACH

We are a Pan India based company with offices in more than 10 + cities (Mumbai, Delhi, Bengaluru, Chennai, Goa, Coimbatore, Kolkata, Pune, Rajkot, Dehradun, Hyderabad) across India, working with more than 100+ resellers and growing number rapidly

“In creating technology for ourselves we created it for the world.”

“WE”

The only way to do Great Work is to love what you do.

OUR ACHIEVEMENTS

- 25000+ Happy and satisfied customers.
- We till now have installed more than 10000+3D Printers with 30+ model types.
- We are a leading seller of more than 100000+ 3D Filaments with 25+ types.
- We offer extended offices and sales services support across India with 11+ stores.
- Team strength of 50+ Employees.

OUR REACH

We are a fully-fledged 3D Printing Company with Pan India presence. We have offices in more than 10+ Cities (Mumbai, Delhi, Bengaluru, Chennai, Goa, Coimbatore, Kolkata, Pune, Rajkot, Dehradun and Hyderabad). Presently, we are working with more than 100+ resellers and leaving no stone untouched in growing rapidly.

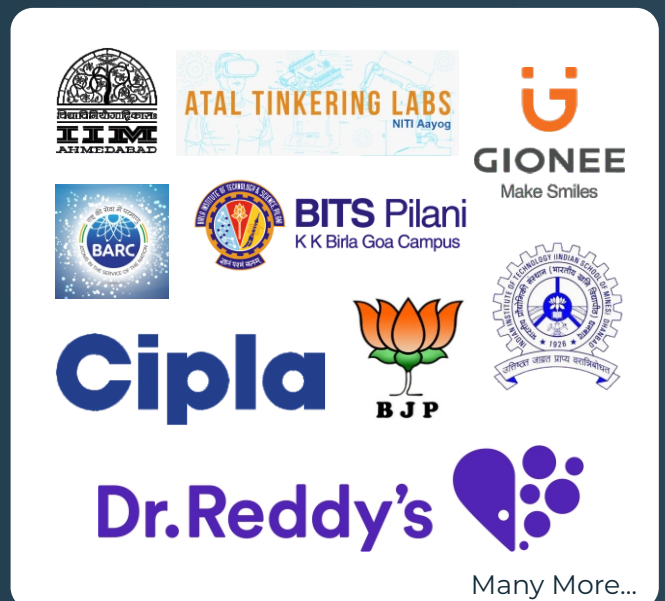

We are one of the fastest growing manufacturing company with a proven franchise model and reseller model. You can be a part of the WOL3D Family and be a part of this fast growing technology. We use a combination of innovation and creativity while using 3D printing technology in creating 3D Printers.

OUR CLIENTS

They have become a “Second Family” and we are so thankful that we have the privileged in working with each of them.

What makes us the best choice for you?
“Mastering others is strength, mastering yourself is true power.”

- In-house manufacturing
- Client-focused approach
- Cost-effectiveness
- Commitment
- Dedicated team of experts
- Timely service

“The time has come to move to a new generation of technology.”
